2012

Varese, 27 gennaio 1947 – ha inizio l'avventura.

Nasce la SANDRO MENTASTI INDUSTRIA GOMMA fondata dal Sig. Sandro Mentasti che reduce dalla seconda guerra mondiale inizia a produrre, nella cantina di casa, camere d'aria per auto e moto, articoli molto richiesti nell'Italia del dopoguerra che vede aumentare di giorno in giorno il fenomeno della motorizzazione. L'iniziale attività artigianale si evolve ed in breve tempo diventa industriale trasferendosi in una nuova sede ed operando con moderni impianti di produzione.

Oggi la SANDRO MENTASTI Srl è una realtà che esporta in tutti i continenti nei più svariati settori industriali privilegiando il mercato motociclistico offrendo migliaia di articoli che si concretizzano negli oltre 6.000 stampi esistenti in Fabbrica.

Il carattere familiare del management, giunto alla terza generazione, permette di curare al massimo l'alta qualità dei prodotti, da sempre principio ispiratore dell'azienda che con il costante e continuo aggiornamento tecnologico unito all'elevato grado delle capacità professionali dei Collaboratori, vero patrimonio aziendale, progetta e produce con la consapevolezza degli oltre sessant'anni di lavoro ed esperienza.

L'attenzione particolare posta alla salvaguardia dell'ambiente, pensando alle generazioni future, si esprime nell'applicazione del Programma di Protezione Ambientale della Sandro Mentasti Srl.

Questo catalogo accessori 2012 presenta i prodotti di punta, commercializzati con i marchi Ariete, Harri's, ARI, dedicati al Motociclista mentre altre linee di ricambi moto OEM sono disponibili in specifici cataloghi.

La Direzione Vendite Ariete è a disposizione per fornire tutte le informazioni di carattere tecnico e commerciale che dovessero necessitare.

Varese, 27th January 1947 – the story begins

SANDRO MENTASTI INDUSTRIA GOMMA was founded by Mr. Sandro Mentasti, who began manufacturing inner tubes for cars and motorcycles in the basement of his house after the end of WWII. In the period following the war, there was a rapid increase in the number of motor vehicles on the roads and a corresponding huge demand for inner tubes.

This initial production rapidly developed into an industrial activity and was quickly relocated to a new site. Here, the product was developed using modern manufacturing machinery and plant.

These days, SANDRO MENTASTI Srl exports worldwide to a broad variety of industrial sectors, but specialises in the motorcycle market. We offer thousands of articles produced from over 6,000 moulds collected at the factory over the years.

Sandro Mentasti srl remains a family business, now third generation. This ensures the products are of the highest quality, a characteristic which has always been at the forefront of the Company's ethics. Using the Company's greatest asset, their personnel, Sandro Mentasti srl has continued to develop the design and manufacture of its products, using the latest technology and the experience of sixty years to help guide them. Our wish to preserve the environment for future generations is expressed by the implementation of our Environmental Safeguard Programme.

This Accessories Catalogue 2012 showcases our leading products, which are sold under the Ariete, Harri's and ARI brands and aimed at motorcyclists. Other OEM spare parts for motorcycles are displayed in specific and tailored catalogues.

The Ariete Sales Management/Department is at your complete disposal for any technical and/or commercial information you may need.

ATTENZIONE:

I prodotti Ariete, Ari ed Harri's non prevengono danni in caso di impatto.

Se non siete sicuri di qualche istruzione di montaggio, contattate info@ariete.com

La Sandro Mentasti Srl non è responsabile per danni occorsi durante l'uso di questi prodotti.

RESPONSABILITÀ LEGALE

L'utilizzo dei codici originali dei produttori è solo a scopo di riferimento.

I prodotti Ariete, Ari ed Harri's non sono gli stessi venduti dal produttore.

Tutti gli sforzi sono stati fatti per assicurare la precisione e la facile comprensione dell'informazione esposta in questo catalogo. In ogni caso la Sandro Mentasti Srl non può essere ritenuta responsabile se i suoi prodotti vengono usati in condizioni speciali o eccezionali senza aver prima chiesto il parere ad un rappresentante Ariete.

La Sandro Mentasti srl non è ufficialmente coinvolta con PIAGGIO®, HONDA®, YAMAHA®, SUZUKI®, KAWASAKI®, KTM®, BMW®.

Tutti i prodotti identificativi di modelli di moto sono da considerarsi unicamente come riferimento per l'uso degli accessori.

WARNING:

ARIETE

DESIGN OCCHIALE ARIETE:

L'occhiale Ariete è coperto da Registrazione di design europeo EU #568910-0001 ed americano US PAT D595,331S.

PROTEZIONE OCCHIALE ARIETE:

L'occhiale Ariete è certificato secondo le norme europee EN 1938:1998 e EN 166:2001.

PROTEZIONE LENTI ARIETE:

- Le lenti Ariete sono certificate secondo la norma europea EN 1938:1998;
- sono provviste di trattamento Anti-fog che è opzionale secondo la norma europea EN 1938:1998;
 - superano i test di impatto "High Mass" e "High velocity" secondo la norma americana ANSI Z87.1-2003;
 - rispondono alle caratteristiche prescritte dalla norma americana VESC-8.

***Significa che la lente dell'occhiale ARIETE resiste all'impatto di una sfera d'acciaio di 6 mm di diametro lanciata a 252 km/h.
(il minimo richiesto dalla norma 1938:1998 è 162 km/h)***

ARIETE GOGGLE DESIGN:

Ariete goggles are covered by European Registered design EU #568910-0001 as well as by American US PATENT D595,331S.

ARIETE GOGGLE PROTECTION:

Ariete goggles are certified according to European standards EN 1938:1998 and EN 166:2001.

ARIETE LENS PROTECTION:

- Ariete lenses are certified according to European standard EN 1938:1998;
- they are provided with Anti-fog treatment, which is optional under European standard EN 1938:1998;
 - they pass the "High Mass" and "High velocity" impact tests provided for by American ANSI standard Z87.1-2003;
 - they meet the requirements of American standard VESC-8.

Lexan® è un marchio registrato di Sabic Company.
Lexan® is the registered trade mark of Sabic Company

Sistema di ventilazione AVS. Il Sistema di Ventilazione Ariete, utilizzando specifiche aree per l'ingresso e la fuoriuscita dell'aria, interviene direttamente sulla temperatura all'interno dell'occhiale e sfruttando il profilo frontale superiore del frame, opportunamente ribassato, facilita l'afflusso di aria alle prese di ventilazione del casco.

AVS Ventilation system. The Ariete Ventilation System uses carefully chosen areas for the intake and exhaust of cooling air. Airflow from the goggles, whose upper front profile is specially lowered to aid this process, enters the collecting vents at the front of the helmet, flows across the rider's head, and leaves the back of the helmet in a continuous process.

A.V.S. Ariete Ventilation System

ARIA COLLECTION

Caratteristiche:

I

- Frame: compatibile con tutti gli accessori/ricambi occhiali Ariete
materiale robusto e tenace
colori anti UV
adatto ai caschi per bambini
- Lente: chiara in policarbonato
trattamento anti-appannamento e anti-graffio

12964-TOLL Kit 3 pacchetti 7 Tearoff/pacch. Laminati per Lente - TEAROFFS LAMINATI: da applicare sulla lente: sono il massimo che offre il mercato.

Sono realizzati con una tecnologia esclusiva che ottimizza la visione, senza distorsione ottica e sono perfettamente trasparenti. I tearoffs laminati sono 7 lenti a strappo "sigillate" tra loro, si possono montare insieme 3 pacchetti di laminati, quindi 21 lenti a strappo per una super autonomia. Brevettati e garantiti Racing Optics® USA, sono il segreto dei professionisti! Importante: Installare i tearoffs laminati con la scritta "Racing Optics®" all'esterno. Piegare la parte esterna di ciascuna lente a strappo individualmente, agganciarla centrando il foro e sovrapporre gli strati alternando il foro esterno e il foro interno.

TEAR OFFS:

UK

12964-TOLE Kit 5 stacks 6 Tearoffs per stack for lenses - TEAROFFS for MOTOCROSS/ENDURO: to place on the lenses;

12964-TOLS Kit 5 stacks 6 Tearoffs per stack for Supermoto - TEAROFFS for SUPERMOTO: to place on the lenses;

12964-TOV Kit 3 stacks 6 Tearoffs per stack for ventilated lens - TEAROFFS for VENTILATED LENSES: to place on the lenses;

12964-TORO Kit 3 stacks 6 Tearoffs per stack for Roll-Off - TEAROFFS for ROLL-OFF: to place on the Roll-Off film;

12964-TOLL Kit 3 stacks 7 Tearoffs Laminated Tearoffs for lenses - LAMINATED: For professional racers! This is a clearly superior laminated tearoff system that works like traditional products, only faster and easier! Mount 7 layers at one time and stack up to 21 tearoffs with undistorted optical clarity. Highest quality available, advanced patented technology by Racing Optics® USA. Important: Install with "Racing Optics®" label facing out. Fold each tab individually with hole centered over post.

ROLL-OFF

KIT 12962-RO

12962-RO - Il sistema ROLL-OFF degli occhiali ARIETE comprende:

- 2 canistri (1 di svolgimento + 1 di raccolta) - 2 rullini (1 di uso + 1 di scorta) - 1 "mud flap"
- 1 "slide rail", ovvero, una guida di scorrimento completamente trasparente, da inserire tra la lente e i canistri, che permette al film del roll-off di scorrere senza attaccarsi alla superficie della lente. Sostituisce in modo elegante ed efficace il classico filo da pesca utilizzato dai piloti più smaliziati. Tutti i componenti sono disponibili anche come singoli ricambi.

12962-RO - The ROLL-OFF SYSTEM by ARIETE OPTICS is made of:

- 2 canisters (left and right); - 2 rolls of film (1 + 1 replacement); - 1 mud visor;
- 1 anti-stick slide rail! Just fit the slide rail over the roll-off pins and locate it by fitting the canisters. This will enable the roll-off film to slide smoothly across the lens without sticking to it. This neat and effective system replaces the fishing line which is normally used. Also available: a ready-assembled special lens and roll-off assembly, and a race-ready set of goggles. All these components are available separately as spare parts.

02614 ARIETE Trinity - LE MANOPOLE ASIMMETRICHE IN 3 MATERIALI: I

Il pilota sottopone a stress diversificato la manopola destra del lato acceleratore e quella di sinistra del lato frizione. ARIETE Trinity è la soluzione: un paio di manopole differenziate per funzionalità e confort. Le 3 mescole sono state collocate in aree specifiche per ottimizzare la presa e la durata del prodotto. ARIETE Trinity: manopole tecniche, ergonomiche, "scolpite sulla moto" dalle mani dei top riders.

Caratteristiche principali:

- Base manopola in materiale semirigido anti-torsione;
- Zona palmare in confortevole Supersoft, zona presa dita con specifico rilievo half-waffle;
- Flangia maggiorata, internamente rinforzata, rivestita in morbidissimo XTouch;
- Incavo con sagoma anatomica per pollice ed indice;
- Fondello predisposto all'asportazione (con guidalama) in caso di uso di paramani chiusi;
- 4 cave per filo di ferro per serraggio perfetto, la 4ª cava è situata all'estremità dell'impugnatura per ridurre l'entrata di impurità tra manopola/manubrio e manopola/comando gas con paramani chiusi;

ASYMMETRICAL GRIPS CO-MOULDED FROM 3 COMPOUNDS:

The throttle twist grip is used in a different way from the dummy grip on the clutch side. UK

Ariete Trinity is the solution for this problem, with each grip designed to provide maximum comfort in its particular application.

The 3 different compounds have been moulded into critical areas of the grip so as to maximise comfort and durability. Ariete Trinity - technical grips, whose form was sculpted in real time by the hands and experience of top riders.

Main features:

- Chassis in semi-rigid torque-limited elastomer;
- Palm in legendary Supersoft, critical finger-grip area with half-waffle surface;
- Pronounced inner flange, with internal reinforcement, coated in extra-soft XTouch;
- Anatomically profiled cut-out for thumb and forefinger;
- Outer flange pre-marked for piercing with a cutting guide for use with all-round hand guards;
- Four grooves for steel wire give extra security.
- The fourth groove is situated at the extreme outer end of the grip to prevent grit from being trapped between bar and grip or bar and twist grip when used with hand guards;

02629-GRN 115 mm - 4 1/2" XT+SEBS

02629 ARIETE Duality **I**

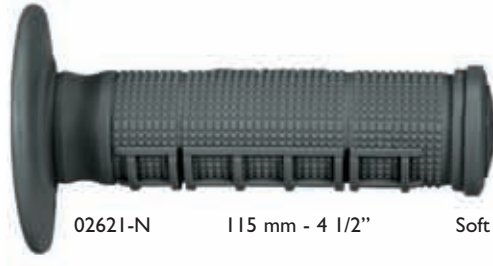

- superficie del corpo a micro-piramidi in rilievo
- 2 componenti, 2 durezze, due colori
- zona palmare in confortevole Supersoft
- flangia maggiorata, internamente rinforzata
- incavo con sagoma anatomica per pollice ed indice
- fondello predisposto all'asportazione (con guidalama) in caso di uso di paramani chiusi
- 3 cave per filo di ferro per serraggio perfetto, la 3ª cava è situata all'estremità dell'impugnatura per ridurre l'entrata di impurità tra manopola/manubrio e manopola/comando gas con paramani chiusi.

02629 ARIETE Duality **UK**

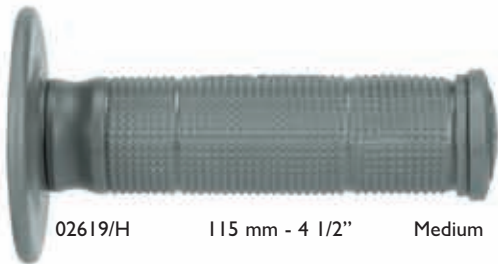

- micro-pyramid pattern provides firm safe grip
- dual compound, dual hardness, dual colour
- palm in legendary Supersoft material
- pronounced inner flange, with internal reinforcement
- anatomically profiled cut-out for thumb and forefinger
- outer flange pre-marked for piercing with a cutting guide for use with all-round hand guards
- three grooves for steel wire give extra security. The third groove is situated at the extreme outer end of the grip to prevent grit from being trapped between bar and grip or bar and twist grip when used with hand guards.

ARIETE Unity **I**

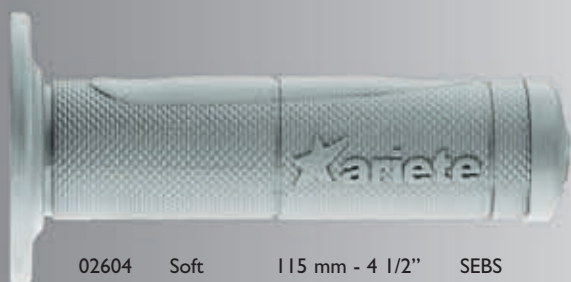

- Flangia maggiorata;
- Incavo con sagoma anatomica per pollice ed indice;
- Fondello predisposto all'asportazione (con guidalama) in caso di uso di paramani chiusi;
- 4 cave per filo di ferro per serraggio perfetto, la 4ª cava è situata all'estremità dell'impugnatura per ridurre l'entrata di impurità tra manopola/manubrio e manopola/comando gas con paramani chiusi;

ARIETE Unity **UK**

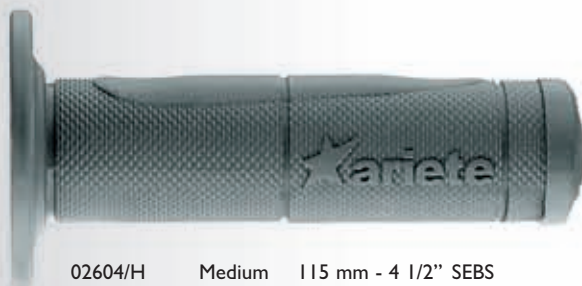

- Pronounced inner flange;
- Anatomically-profiled channel at the inner end for thumb and forefinger;
- Outer cap pre-marked for piercing, with a cutting guide for use with all-round hand guards;
- Four wire-on grooves for extra security. The fourth groove is at the extreme outer end of the grip, and prevents grit from being trapped between bar and grip or bar and twist grip when used with hand guards;

ARIETE "ALU-RUB": **I**

ALUMINIUM + RUBBER = con attacco meccanico!

Ariete presenta il suo gioiello dedicato agli amanti delle moto stradali! I materiali selezionati sono pregiatissimi: il corpo manopola è una lega speciale a base di alluminio utilizzata in campo aeronautico, la superficie palmare è in puro Supersoft.

Caratteristiche principali:

- alluminio leggerissimo ed ultra resistente;
- materiale anallergico e resistente ai raggi UV;
- struttura anatomica, forma ergonomica;
- alluminio anodizzato satinato, effetto opaco;
- manopola destra: compatibile con comandi di serie!!!;
- manopola sinistra: fissaggio di sicurezza con viti;
- Compresa chiave a brugola per installazione.

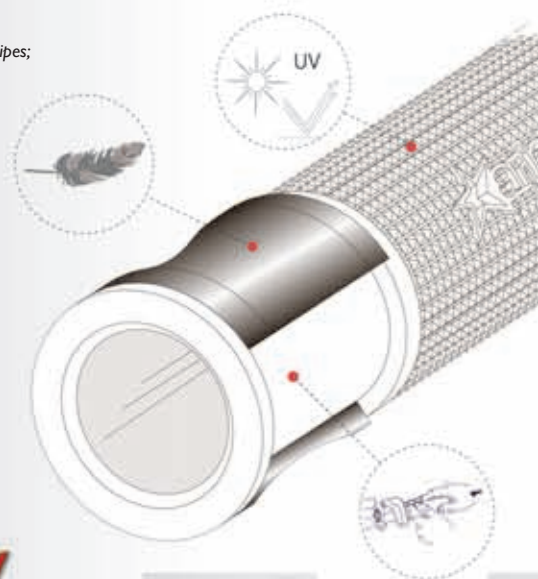

ARIETE "ALU-RUB" GRIPS: **UK**

ALUMINIUM + RUBBER = the LOCK-ON Ariete grip!

Ariete aims for innovation without foregoing the fundamental reliability and safety that have always been the hallmark of Ariete products. Ariete ALU-RUB grips: aeronautical aluminium + supersoft rubber.

Main features:

- superlight and extra resistant aluminium;
- anti-allergy and UV-resistant rubber;
- anatomical shape and structure;
- anodized mat aluminium;
- right grip: suitable for standard throttle pipes;
- left grip: screw fastening;
- Improved collar profile;
- Slimline design for a greater control;
- Allen key provided.

SPARE PARTS

12999 125 mm - 4 7/8" PAIR SPARE PARTS RUBBER

12998 125 mm - 4 7/8" PAIR SPARE PARTS RUBBER

13905 125 mm - 4 7/8" PAIR SPARE PARTS RUBBER

BILANCIERI ALU-RUB: I

Caratteristiche:

- Massa in alluminio anodizzato ricavato dal pieno
- Viti in acciaio Inox antiruggine
- Parti in gomma vulcanizzata per migliorare l'adesione all'interno del manubrio
- Modelli Universali: Doppia sicurezza garantita da 2 punti di tenuta
- Colori disponibili : alluminio, nero, oro

ALU-RUB BAR WEIGHTS UK

Main features:

- Anodised body machined from billet alloy
- Stainless steel screws
- 2 Deformable vulcanised rubber spacers to grip the i.d. of the bar (in Universal Models)
- Maximum security provided by these two locking surfaces
- Available in: self-coloured alloy, black, gold

EXTREME GRIPS

02613 130 mm - 5 1/8" Forata/Hole Soft

02613/H 130 mm - 5 1/8" Forata/Hole Medium

02613-N 130 mm - 5 1/8" Forata/Hole Soft

02613 - Extreme Grips: I

- Superficie del corpo a micro-piramidi in rilievo;
- 2 versioni di materiale: morbido in colore grigio chiaro o nero, medio in grigio scuro;
- Il fondello dispone di un rilievo antiscivolo laterale;
- 3 cave per il filo di acciaio di fissaggio con apposito spazio per contenere il filo ripiegato;
- Flangia paramani di diametro ridotto;
- Materiale anallergico;
- Terminale forato.

02613 - Extreme Grips: UK

- micro-pyramid pattern provides firm safe grip;
- 3 versions: soft compound, light grey, soft compound, black, medium compound - dark grey;
- outer flange for lateral hold;
- 3 built-in wire-on grooves with space to tighten the wire;
- minimal flanges;
- anti-allergy special material;
- pierced for balance weights.

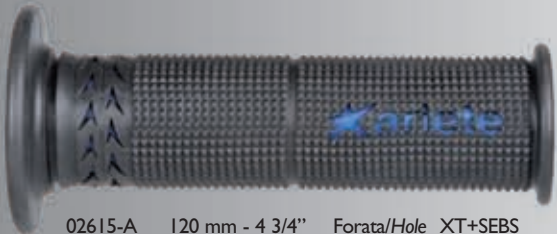

ESTORIL GRIPS

02615 - Ariete ESTORIL: I

- Materiale: una miscela di elastomeri e tecnopolimeri selezionati per le loro caratteristiche di grip e resistenza;
- anima rigida, rivestimento morbido;
- disegno strutturale per assorbire le vibrazioni;
- 3 cave per il filo di ferro;
- superficie del corpo a micro-piramidi in rilievo;
- flange ridotte;
- materiale anallergico;
- forate per stabilizzatori;

02615 - ESTORIL grips: UK

- Material: a stable aerospace-tested blend of elastomers and techno-polymers specially chosen for their strength and feel;
- rigid sub-strate with soft outer skin;
- cleverly-designed to give exceptional grip and absorb vibration;
- 3 built-in wire-on grooves;
- technical micro-pyramid pattern;
- minimal flanges;
- special anti-allergy material;
- pierced for bar-end balance weights;

Manopole Harri's Strada: I

Le manopole Harri's sono state progettate per favorire al massimo la sensibilità di guida. La superficie esterna è composta da un compound trasparente (TSC®) di polimeri derivati dall'industria aerospaziale. Questo materiale garantisce una migliore ergonomia e una presa sicura.

Caratteristiche:

- Brevetto internazionale: DM/049639, US:VA I-242-397;
- Materiali di altissimo pregio;
- Resiste agli agenti atmosferici, raggi UV, ed Ozono;
- Flangia paramano a cedimento controllato per neutralizzare le vibrazioni;
- Superficie palmare del corpo manopola per garantire una presa sicura;
- Speciale lavorazione sul retro per presa delle dita;
- Fondello antiscivolo con marcato "UP" per un montaggio corretto;
- Struttura e profilo ergonomici.

HARRI'S ROAD Grips: UK

Harri's grips have been designed to enhance driving sensitivity and security. The outer surface is made from a transparent polymer (TSC®) coming straight from the aerospace industry. This provides better ergonomics and a firmer grip.

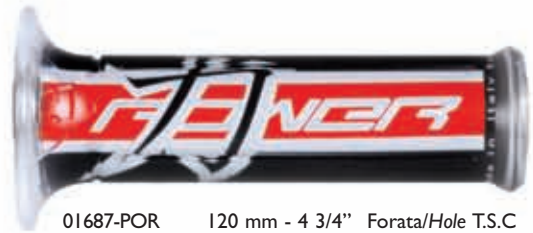

Main features:

- International patent: DM/049639, US:VA I-242-397;
- Top quality material;
- Resistant to atmospheric agents, UV rays, ozone;
- Inner flange buttressed to support the hand and neutralise vibrations;
- Smooth upper surface, enhanced comfort;
- Lower surface provides maximum grip for the fingers;
- Outer flange for lateral hold marked "UP" to indicate the correct position;
- Anatomical shape and structure.

Tubo Benzina Ariete per benzina senza piombo:

- Tubo interno resistente alla benzina senza piombo;
- Rivestimento esterno (colore viola) resistente ai raggi UV, al calore ed allo stress meccanico;
- Non si accorcia;
- Rimane elastico, non diventa secco nel tempo;
- Durevole;
- Trasparente, è visibile il passaggio della benzina.

I

Ariete Petrol Pipe for unleaded fuel:

UK

- Inner tube stands up to unleaded fuels
- Outer purple tube protects from high temperatures, mechanical stress, and atmospheric agents
- Shrink-proof
- Resists embrittlement, remains flexible
- Durable
- Translucent, so dirty fuel is visible through pipe

ARI KITS PARAOLIO FORCELLA:

Il perfetto funzionamento della forcella anteriore è di fondamentale importanza per qualsiasi tipologia di moto, dal Superbike al Trial.

L'Ariete ha messo a punto una speciale formulazione di gomma resistente all'aggressione chimica provocata dagli additivi contenuti negli olii usati nelle forcelle. E' stata inoltre studiata una particolare forma dell'anello paraolio che con più labbri di tenuta, rettificati perfettamente, ripartisce e contiene in modo omogeneo la spinta dell'olio impedendo qualsiasi fuoriuscita.

La linea di questi KITS denominata ARI è composta da oltre 140 misure diverse che equipaggiano più di 35.000 modelli di moto dagli anni 60 ad oggi. Ogni Kit composto da 2 anelli di tenuta, è dotato di una bustina dello speciale grasso ARISIL studiato per le applicazioni gomma-metallo che migliorando il lavoro a cui è sottoposto il paraolio ne aumentano la durata nel tempo.

ARI FORK OIL SEAL KITS:

UK

Correct performance from the front fork is a vital requirement for everything from Superbikes to Trials bikes. ARIETE has worked hard to produce a special rubber compound which tolerates the chemical additives used in fork oil. We have also refined the design of the OIL SEAL LIPS, which have a ground finish. They offer complete control of the varying internal pressure as the fork is alternately extended and compressed, with no loss of lubricant. We offer over 140 ARI dimensions, which fit more than 35.000 motorcycle models, covering the period from the 1960s until the present day. Each kit comprises 2 oil seals, and comes complete with a sachet of special Arisil grease. This has been specially developed for lubricating reciprocating metal-rubber contact areas, reducing friction at the point of contact, and increasing the life expectation of the components involved.

ARI FORK SEAL DRIVER:

UK

Forky, Ari Fork Seal Driver è un attrezzo per montare correttamente i paraolio su forcelle tradizionali e rovesciate (upside down).

Progettato per facilitare questo tipo di lavoro è disponibile per paraolio da 35 a 51 mm di diametro interno. Ricavato dal pieno è in acciaio con trattamento galvanico anticorrosione ed ha una superficie esterna lavorata per una presa sicura. Il peso è compreso, secondo le misure tra gli 800 ed i 1000 grammi. Viene venduto a pezzo singolo.

ARI FORK SEAL DRIVERS:

UK

The Split fork seal driver is a tool used for changing the fork seals on conventional and upside down forks. Designed for easy installation of most fork seals in 35 mm thru 51 mm configurations. Manufactured from plated carbon steel, featuring split design and weighted body. Weight range from 800 to 1.000 gr. Sold individually.

SCOOTER CINGHIE BY GATES®

KEVLAR

Gates è il produttore leader nella costruzione di cinghie ad alto contenuto tecnologico per il mercato automobilistico e industriale.

L'alta qualità dei materiali e le avanzate caratteristiche del prodotto unite all'ottimizzazione delle prestazioni, aumentano la vita delle cinghie e riducono al minimo i costi di manutenzione.

Le cinghie Gates sono caratterizzate una per una dalle seguenti particolarità:

- La gomma è rinforzata dalla fibra aramidica per la miglior resistenza all'usura e per assicurare un perfetto accoppiamento con la puleggia del variatore.
- I più moderni trattamenti chimici dei cavi della cinghia, assicurano una perfetta adesione dei cavi alla gomma garantendo lunga vita alla cinghia e grande resistenza ai carichi pulsanti.
- Le mescole speciali di gomma offrono un'ottima resistenza alle alte ed alle basse temperature resistendo alle variazioni termiche.
- Il costante controllo dei processi produttivi assicura la massima accuratezza delle dimensioni delle cinghie.
- Costruite dalle fabbriche Gates in Europa, che sono tutte certificate per alta qualità, sicurezza e cura per l'ambiente.
- Nelle cinghie non sono presenti componenti chimici tossici in accordo con le direttive Europee.

Disponibili in tre versioni per rispondere alle più svariate richieste:

- 1) STANDARD:** la gomma è rinforzata con fibra aramidica.
- 2) KEVLAR:** oltre alla gomma rinforzata con fibra aramidica la cinghia ha cavi in fibra aramidica particolarmente tenace, per resistere ai carichi shock e alle accelerazioni più importanti.
- 3) DOPPIA:** si parla del miglior prodotto oggi sul mercato cioè la gomma EPDM unita ai cavi in fibra aramidica, e la costruzione a doppia dentellatura (Double Notch) per garantire il massimo delle prestazioni, a veicoli che chiedono e rendono il massimo.

STANDARD

Gates is a leading manufacturer of high-tech belts to the automotive and industrial markets. High-quality materials and advanced product features optimise performance, increase product lifetime and bring maintenance costs to a reassuring low. Gates' belts are all characterised by one or more of the following unique characteristics:

- *Aramid fibre reinforced rubber compound, to better resist wear and ensure smooth sliding in the variator pulleys.*
- *Advanced chemical treatment of the tensile members, to assure improved bonding between cord and rubber and guarantee longer belt life and high shock resistance.*
- *Unique rubber compounds, to offer optimum resistance to the highest and lowest temperatures and to thermic load under friction.*
- *Consistent production processes, to ensure dimensional accuracy.*
- *Manufactured in Gates' European facilities, all certified to the highest quality and safety and environmental standards.*
- *No toxic chemical components, in compliance with the relevant European directives.*

Available in three different constructions to meet the most varied requirements:

- 1) STANDARD:** with aramid reinforced rubber compound to improve durability.
- 2) KEVLAR:** with aramid reinforced rubber compound and extra strong aramid tensile members to maximise acceleration, shock load resistance and service life.
- 3) DOUBLE NOTCH:** with state-of-the art EPDM compound, extra strong aramid tensile members and Double Notch construction to guarantee extra high performance, particularly suited for high displacement vehicles.
